Breeding with integrity

Application form to register a litter

Together with this form you have to send in the stud certificate, the general health certificate and a picture of the litter. After receiving the litter registration fees and the documents, the litter will be published on the website of ALFA-Europe. The exact names of the puppies and their owners have to be filled in on a separate application form to receive the pedigrees. This information is necessary to be able to print the accurate pedigree for each individual puppy.
